Product highlights

Energising docking station
The docking station is the most convenient way to store your receiver when not in use. At the same time, it will recharge your reciever unit and have it ready for use at any moment.

Auto-fit headband
The auto-fit headband ensures a perfect fit every time you put the headphone on. You don't have to adjust anything, just get straight into the game.

SRS headphone
With SRS Headphone, you experience sound from all around you, making this headphone more enjoyable for endless hours of entertainment.

Double PLL
Both the transmitter and the wireless headphone have precision microprocessor-controlled Phase Locked Loop (PLL) systems to ensure the most stable transmission.

FM Wireless transmission
With high frequency FM wireless transmission, which can even pass through walls, you can even listen to your music when you're in another room.

Sonic Vibes System
You'll feel like you're actually part of the game, experiencing every blow, knock or tremor through motion vibrators mounted independently of the speaker element. It makes action games more exciting than ever.

Compatible with most consoles
This wireless headphone is designed to work with all the most popular types of gaming console.

Ergonomic design ear cushions
The ergonomic 3 dimensional ear cushion shape evenly distributes the load for a better and more comfortable fit.
